

eNATUREportal

Internal Waste Management

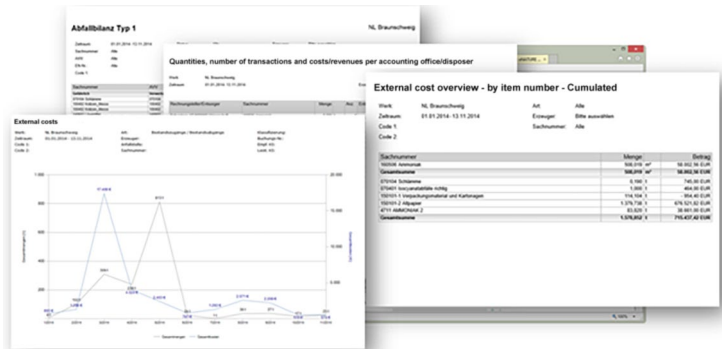

The modular solution for the comprehensive digitisation of all application, confirmation, monitoring, control and documentation processes of internal and external waste streams. eNATUREportal supports digitisation of:

- ▶ In-house waste disposal logistic from mobile waste disposal enquiries to inventory and warehouse management
- ▶ Disposal management from scheduling to collection
- ▶ Sales, invoices, internal settlements including verification of invoices/credit notes
- ▶ Statistical evaluation and controlling (disposed quantities, costs and revenues)
- ▶ Accounting of waste and hazardous materials, BimSchG, etc.

With eNATUREportal, all logistics and accounting processes relating to hazardous and non-hazardous waste disposal can be mapped – from industrial parks and companies to construction sites. Global corporations and medium-sized companies from a wide range of economic sectors are already benefiting from the portal include:

- ▶ Chemical parks and pharmaceutical companies
- ▶ Automotive industry and suppliers
- ▶ Energy and electricity suppliers
- ▶ Trade and transport
- ▶ Industrial clients and public sector
- ▶ Hospitals and medical administrations
- ▶ Universities
- ▶ ...

The tried and tested modular system eNATUREportal (formerly TRIAS-AMOS) meets the high demands expected by waste-producing companies including:

- ▶ implementation of company-specific requirements
- ▶ mapping of operational and/or industry-specific processes
- ▶ fulfilment of waste legislation and environmental requirements
- ▶ data exchange with external systems (SAP, ERP systems, container sensors, selfweighing systems, signature terminals, label printing, ...)
- ▶ ADR and GHS data
